The current study investigated whether fiction experiences change empathy of the reader. Based on transportation theory, it was predicted that when people read fiction, and they are emotionally transported into the story, they become more empathic. Two experiments showed that empathy was influenced over a period of one week for people who read a fictional story, but only when they were ...

Then they must use the 16 animals from exercise 1 to complete the different animal expressions. Keep the conversation questions hidden from students until after they've completed the first gap-fill. Then have them recall the expressions by filling in the gaps in the questions. They can then ask and answer the questions in pairs or small groups.

On the back of his paper, he explained why $1/2 \times 2 = 1$: If you multiply it by 2 you get 1 because $1/2 + 1/2 = 1$. (See Figure 1.) Here are some other clues that students wrote and shared: I am half of 7, subtract 3. The fraction you're guessing is greater than $1/4$ and less than 1. If you double $1/4$, you get this number.

1. Two Kinds of Theory of Meaning. In "General Semantics", David Lewis wrote. I distinguish two topics: first, the description of possible languages or grammars as abstract semantic systems whereby symbols are associated with aspects of the world; and, second, the description of the psychological and sociological facts whereby a particular one of these abstract semantic systems is the one ...
