Introduction. Over the centuries, plants are being relied on by humans not only for feeding and clothing but also for medical needs. They are either produced or manufactured from roots, leaves, bark, buds, berries or seeds of the plants 1.. For a drug or a herbal product to exert a response, it must at least interact with a component of the organism at molecular level.

Star athlete Gray, teammate of McDonald and Perkins, dies at 86

It could be, but there's no proof one way or another. Oil of oregano does have the ability to inhibit certain viruses, fungi, and bacteria in isolated environments, so it's plausible that it might help with a respiratory infection. However, there have been no studies involving people inhaling oil of oregano for respiratory issues, so there's no way to know if it really works, and if it ...
